REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of the Town of Danbury:

I submit herewith, my first report as superintendent of schools.

The report is largely of a statistical nature due to the fact that I did not begin my duties until July 1st and that I have only the attendance and financial records of the year 1928-29.

I have changed somewhat the form of arrangement in the

printing of the financial report. This change is not revolutionary and need cause no alarm.

The four columns of figures give the voters a chance to compare the expenditures, item by item, of last year's business with the current year, and also shows how much has been expended to January 15th. The fourth column is the amount the school board would like to spend next year, not necessarily the sum to be raised.

The statement of the financial standing of the school district on January 15, 1930 immediately following the four columns of figures gives an idea of the solvency of the district. In this particular instance it shows that the assets exceed the liabilities. I have added a column of figures to show how the Danbury school dollar was spent in 1928-29.

The year opened Tuesday, September 3, 1929. Two changes were made in the teaching force. Mrs. Harriet G. Morrison was placed in the Elmwood School and Mrs Grace Ford began her work in the North Road School. Both are teachers of long and successful experience. Miss Cooper, likewise a teacher of long and successful experience was returned to the Center School. Miss Welch was transferred from the Elmwood School to the South Danbury School. In number of years the present teaching force brings to the school district thirty-eight years of experience. I am in hopes that the services of these teachers can be secured for another year.

Enrollment 1929-30

The enrollment of the schools by grades is as follows:

School	Grades I	II	III	IV	V	VI	VII	VIII	Total

Health Work

Miss Margaret C. O'Hara again has charge of the health work of the district and has the work well organized at the time of the writing of this report.

HIGH SCHOOL ATTENDANCE

It is gratifying to see that so many of the young people of the town are availing themselves of the opportunity to attend a secondary school. Thirteen are attending high schools in nearby towns.
